

## WRINKLE RELIEF

There are several ways to diminish the look of wrinkles:

1) **SLOUGH**. Remove the dead, dull skin with a good scrub a little patience. (Your washcloth is a very effective tool to apply product with.)

*(Men's Facial Scrub, Micro-Derm Creme Scrub, Pumpkin Face Scrub with Apricot and Walnuts)*

2) **MOISTURIZE** *with an active ingredient*. This ensures that your moisturizer is *continuously* working to improve the texture of your skin. Products that say "retinol, glycolic and alpha-hydroxy acids, and peptides" remove dead skin cells and promote new cell growth.

*(Peptoxyl Wrinkle Relaxing Creme, Peptoxyl Radiance Serum, Peptoxyl Protection SPF 30, Action C Moisturizer with Vitamin C Men's Skincare (Good for women, too), Revitalizing Lotion with glycolic acid & sodium PCA, Reparative Moisture Crème)*

3) **PLUMP** with products that promote supple skin. Look for Vitamin C in moisturizer and mint extracts in lip balm. HERE'S A SUPER EFFECTIVE COMBO: Use a moisturizer with an active ingredient *at night* and one that contains Vitamin C *during the day*. This ensures *constant* skin rejuvenation. Mint extract *instantly* creates a blood rush and slight swelling in lip tissue.

*(Action C Moisturizer, Super Balm (Comes in 4 sheer tints), Liptoxyl Clear, Liptoxyl Sheer, Liptoxyl X3, and all the other Peptoxyl products)*

4) **SMOOTH** the surface of your skin with a cosmetic primer *that contains a silicon derivative*. (ALL PRIMERS ARE NOT EQUAL). Light-reflective micro particles create a "filter" effect. Look for a slightly opalescent hue to the product.

*(Retexturizing Face Primer, Pore Perfecting Primer, Retexturcreme Face Primer, Flawless Complexion Gel)*
